

Dual Degree or Double Major

Dual Degree

Students may pursue a second undergraduate degree (associate or bachelor's) concurrently with or after completing a first degree, provided they meet all university and academic program requirements.

To earn a second baccalaureate degree, students must:

- Complete a minimum of 25% additional, non-duplicating degree-applicable credit hours beyond the primary degree.
- Complete at least 60 credit hours in residence at Embry-Riddle.
- Complete at least two-thirds (or 20 of 30 hours) of the additional coursework at the 300-400 level.
- Complete all degree requirements for both programs.
- Declare which degree is the primary degree for graduation purposes.

To earn a second associate degree, students must:

- Complete a minimum of 25% additional, non-duplicating degree-applicable credit hours beyond the primary degree.
- Complete at least 30 credit hours in residence at Embry-Riddle.

Each undergraduate degree will be reflected separately on the transcript and will result in a separate diploma.

Declaration of a Concurrent Second Undergraduate Degree

- Students must declare their intention to seek an associate's degree concurrently with a bachelor's degree as early as possible, preferably at the time of admission and prior to their final semester/term of enrollment.

Double Majors

A double major consists of one baccalaureate degree with two distinct majors/programs. Students pursuing a double major:

- Earn one diploma, with the second major noted on the transcript.
- Must complete all academic requirements for both programs prior to graduation.
- May not be allowed to pursue certain major combinations due to curriculum overlap or policy restrictions.
- Must obtain approval from the appropriate Program Coordinator or Department Chair to declare a second major.
- Are subject to the catalog requirements in effect at the time the second major is declared, unless otherwise noted.
