

Intelligence (INTL)

INTL 115 Critical Thinking and Analysis 3 Credits (3,0)

Critical thinking and analytical methodologies in intelligence. Cognitive and perceptual biases, structured analytic techniques, and their strengths and weaknesses.

Course Offered at: Daytona Beach

INTL 199 Special Topics in Intelligence 1-6 Credit (1-6,0)

Individual, independent, or directed studies of selected topics in intelligence.

Course Offered at: Daytona Beach, Prescott

INTL 250 Indications and Warning 3 Credits (3,0)

Indications and warning, its evolution, and its critical role in national and homeland security. The duty to warn, threat identification and assessment, and the means of providing decision-makers with the detail and context necessary for prevention, preemption, deterrence, or response. The history of warning; lessons learned from warning failures; warning's evolution; the methodologies and methodological issues associated with warning; and the structural, cognitive, and psychological issues affecting warning analysis.

Prerequisites: INTL 115

Course Offered at: Daytona Beach

INTL 299 Special Topics in Intelligence 1-6 Credit (1-6,0)

Individual, independent, or directed studies of selected topics in intelligence.

Course Offered at: Daytona Beach, Prescott, Worldwide

INTL 315 Studies in Intelligence I 3 Credits (3,0)

Analysis of how strategic intelligence shapes world policy and events. Topics include intelligence collection, analysis, dissemination, and counterintelligence operations.

Course Offered at: Worldwide

INTL 350 Intelligence Systems and Structures in Homeland Security 3 Credits (3,0)

Appraises intelligence collection, analysis, and dissemination within national and state policy frameworks. Explores U.S. intelligence history and legislative developments in national security strategy.

Prerequisites: INTL 115

Course Offered at: Daytona Beach

INTL 385 Intelligence Collection and Analysis 3 Credits (3,0)

Practical experience in intelligence analysis, writing, and briefing. Focus on analytical methodologies for explaining complex world events to decision-makers.

Course Offered at: Worldwide

INTL 399 Special Topics in Intelligence 1-6 Credit (1-6,0)

Individual, independent, or directed studies of selected topics in intelligence.

Course Offered at: Daytona Beach, Prescott

INTL 405 Intelligence and Emerging Security

Issues 3 Credits (3,0)

Emerging national security, homeland security, and intelligence issues. Bayesian and scenario analysis. Domestic and foreign policy implications. Threats and opportunities on each topic.

Prerequisites: EMGY 310 and HLSC 325

Course Offered at: Daytona Beach

INTL 406 Geographic Information Systems and Intelligence 3 Credits (3,0)

Spatial data analysis activities from data acquisition and manipulation to spatial data visualization using graphs; GIS theory and its intelligence applications with a specific focus on Geospatial Intelligence (GEOINT); uses of spatial data and applications of GIS, including but not limited to disaster response, emergency management, and GEOINT applications by the military, humanitarian, and government organizations to inform decision-making and crisis management. Retrieval, storage, manipulation, and display of spatial data; computer-based applications using ArcGIS software.

Prerequisites: GEOS 210 and SOSC 207

Course Offered at: Daytona Beach

INTL 470 Experiential Learning 3 Credits (3,0)

Interactive simulations, exercises, and games involving planning, collection, exploitation, analysis, and dissemination of intelligence and homeland security concepts and techniques.

Prerequisites: INTL 250 and EMGY 310 and HLSC 360

Course Offered at: Daytona Beach

INTL 488 National Security Issues and Terrorism 3 Credits (3,0)

Analysis of terrorism and low-intensity conflict. Focus on ideological, ethnic, and religious factors driving terrorism and strategies for countering it.

Course Offered at: Worldwide, Asia

INTL 499 Special Topics in Intelligence 1-6 Credit (1-6,0)

Individual, independent, or directed studies of selected topics in intelligence.

Course Offered at: Daytona Beach, Prescott
