

B.S. in Aviation Business Administration

The Bachelor of Science degree in Aviation Business Administration requires successful completion of a minimum of 120 credit hours and is normally completed in eight semesters. Designed for students interested in obtaining a strong aviation business foundation, the degree lets the students select a major in Air Transportation or Aviation and Aerospace Marketing or Supply Chain Management in Aviation and Aerospace. Students should declare their major at the beginning of their sophomore year. Students who participate in the Cooperative Education program may substitute up to 6 credit hours, if approved, toward the specified courses required in their major.

This program is accredited by the Association of Collegiate Business Schools and Programs (ACBSP) and the Aviation Accreditation Board International (AABI).

Students enrolled in the Air Force, Army, or Naval ROTC programs may substitute AF, MY, or NSC courses for the open elective courses.

Students should be aware that several courses in each academic year may require prerequisite subject knowledge and/or class standing. Check the course descriptions before registering for classes to ensure appropriate placement.
