

Professional Education

offerings, and connect with our team (<https://proed.erau.edu/>) to develop tailored training solutions.

Lifelong Learning

As part of Embry-Riddle's strategy, Professional Education delivers an enterprise-wide ecosystem for workforce development and lifelong learning. By leveraging expertise across the university, this approach connects individuals and organizations to high-impact, industry-aligned training solutions across aviation, aerospace, and emerging sectors.

Integrated Learning Solutions

Professional programs are designed to meet evolving industry demands through a dual-delivery model:

- **Open-enrollment courses** that provide immediate access to relevant, in-demand knowledge and skills
- **Customized training solutions** developed in partnership with organizations to address specific operational challenges and strategic priorities

Offerings include:

- Short-courses, seminars, and workshops
- Certificate programs
- Corporate and contract training engagements

All programs emphasize **current, actionable content** that reflects emerging trends, regulatory requirements, and technical advancements.

Flexible, Scalable Delivery

Professional Education solutions are structured to align with the needs of today's workforce:

- Full-time, part-time, and accelerated formats
- In-person, online, and hybrid delivery models
- On-site training available globally for organizational cohorts

Immersive, Applied Learning Environment

Participants engage in a high-value learning experience that includes:

- Direct access to **subject-matter experts and industry practitioners**
- **Hands-on application** supported by advanced labs and technologies
- Collaborative learning environments that foster innovation and problem-solving
- Networking opportunities with peers and industry leaders

Credentials That Advance Careers

Professional Education programs award:

- Certificates of Completion
- Continuing Education Units (CEUs)
- Continuing Legal Education (CLEs), as applicable
- Continuing Professional Education (CPEs), as applicable

These credentials support professional growth and workforce advancement. Professional education courses do not apply toward academic degree programs.

Engage with Professional Education

- Explore and register for **open-enrollment programs** through the centralized course catalog
- Partner with Embry-Riddle to design and deliver **customized training for your organization**
- Access a unified portfolio of professional programs aligned with university expertise
