

A.S. in Aviation Business Administration

At the **Worldwide Campus**, the Associate of Science in Aviation Business Administration includes completion of general education requirements and study of the undergraduate business core. The program develops competencies in collaborative learning, communication, and critical thinking, and introduces key components of the business field. The ASABA is designed to develop foundational business skills and provides a pathway to bachelor's degree programs in the College of Business. The program is offered in formats that allow students to complete coursework in a flexible schedule. Areas of study include accounting, business statistics, ethics, finance, marketing, management, and organizational behavior. The curriculum aligns with the aviation and aerospace industry and general education guidelines.

Program-Level Student Learning Outcomes

Students will:

- Achieve proficiency in common professional business components.
- Achieve proficiency in general education competencies.

Worldwide Program Requirements

General Education Requirements	36
Core Requirements	24
Total Credits	60

Program Details

The Associate of Science in Aviation Maintenance requires successful completion of a minimum of 60 credit hours. Students enrolled in the Worldwide Undergraduate Online program may complete the degree in 10 terms, or approximately two years, assuming full-time enrollment and continuous progress. Students pursuing this undergraduate degree must earn a minimum cumulative grade point average (CGPA) of 2.00 for all work completed at the University. The courses required to earn this degree are listed below.

Students should be aware that many courses have prerequisites and/or corequisites. Students are responsible for ensuring that all prerequisite and degree requirements are satisfied prior to enrollment in advanced coursework. The suggested plan of study is provided as a guide. A student's actual plan of study may vary based on term of admission, course availability, transfer credit, and other academic considerations. Students should consult with their academic advisor to develop an individualized plan of study.

Students who hold a valid FAA Airframe and Powerplant (A&P) Maintenance Certificate may be awarded up to 18 credit hours toward the associate degree or up to 39 credit hours toward a related bachelor's degree, in accordance with University policy. Students may also earn aviation maintenance credit as part of the overall curriculum, where applicable.
