

B.S. in Computer Science

Program-Level Student Learning Outcomes

Students will:

- Apply computer science theory and software development fundamentals to produce computing-based solutions.
- Communicate effectively in various professional contexts.
- Analyze complex computing problems and apply principles of computing and other relevant disciplines to identify solutions.
- Design, implement, and evaluate computing-based solutions to meet specific computing requirements within their program's discipline.
- Function effectively as members or leaders of teams engaged in activities appropriate to their program's discipline.
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
