

B.S. in Global Business and Supply Chain Management

At the **Prescott Campus**, the Bachelor of Science in Global Business and Supply Chain Management is housed in the School of Business in the College of Business, Security and Intelligence. The program examines global perspectives related to logistics, supply chain management, and global business. The curriculum includes an analytical approach to global issues in aviation, logistics and transportation, marketing, accounting, finance, and trade, with emphasis on international economies and their interactions. The program also addresses cultural and environmental factors affecting business and supply chain operations in a global context. The Global Business and Supply Chain Management program is accredited by the Accreditation Council for Business Schools and Programs (ACBSP).

Program-Level Student Learning Outcomes

Students will:

- Apply the business and supply chain management knowledge through problem-based scenarios, consulting projects and/or professional industry performance.
- Apply fundamental business principles effectively.
- Solve business analytics and supply chain foundational problems using data and software analysis.
