

B.S. in Project Management

At the **Worldwide Campus**, the Bachelor of Science in Project Management focuses on the organization, planning, and coordination of tasks and resources to achieve defined goals within a specified period. The program includes study of project delivery within time and budget constraints and is led by faculty with experience in project management. The curriculum includes the use of Project Management Information Systems (PMIS) software and requires proficiency in word processing, spreadsheets, and presentation graphics. The Bachelor of Science in Project Management is accredited by the PMI Global Accreditation Center for Project Management Education Programs (GAC).
