

B.S. in Aeronautics to Master of Business Administration

This program allows the exceptional student to complete the Bachelor of Science in Aeronautics (BSA) and Master of Business Administration (MBA) degrees at the Daytona Beach campus.

Upon completing the undergraduate requirements, the Bachelor of Science degree in Aeronautics will be conferred, and students will be enrolled in the graduate degree. In any graduate course taken by an undergraduate student, a grade of "B" or better must be earned. These credits will count toward the undergraduate and graduate degree requirements, provided the student maintains enrollment in the combined program and receives a "B" or better in the courses.

If the student chooses to leave the program before the completion of the MBA program and has acquired the minimal hours required for graduation with the B.S. in Aeronautics, any MBA transition courses used to meet graduation requirements will be noted as undergraduate courses for the purpose of graduation.

Approved Courses for the Combined Program

Students enrolled in the combined option must consult their academic advisor and the MBA program coordinator to determine appropriate course selection. Students will take SCLM 511, MKTG 515, and/or MGMT 520 to replace an equal number of open electives and/ or professional development elective courses in the BSA degree. Not following the Suggested Plan of Study will require the student to take additional courses to prepare for the MBA.
