

B.S. in Aviation Business Administration to M.S. in Aerospace Business Analytics

This program allows exceptional students to complete the Bachelor of Science in Aviation Business Administration (BSABA) and Master of Science in Aerospace Business Analytics (MSAEBUAN) degrees at the Daytona Beach campus.

Upon completing the undergraduate requirements, the Bachelor of Science degree in Aviation Business Administration will be conferred, and students will be enrolled in the graduate degree. In any graduate course taken by an undergraduate student, a grade of "B" or better must be earned. These credits will count toward the undergraduate and graduate degree requirements, provided the student maintains enrollment in the combined program and receives a "B" or better in the courses.

If the student chooses to leave the program before the completion of the MSAEBUAN program and has acquired the minimal hours required for graduation with the B.S. in Aviation Business Administration, any MSAEBUAN transition courses used to meet graduation requirements will be noted as undergraduate courses for the purpose of graduation.

Approved Courses for the Combined Program

Students enrolled in the combined option must consult their academic advisor and the Master's program coordinator to determine appropriate course selection. Students will take SCLM 511, ECON 523, and/or BUAN 530 to replace an equal number of Open Elective courses in the BSABA degree.

View BSABA requirements (<https://catalog.erau.edu/programs/undergraduate/bachelors/aviation-business-administration/>)

View MSAEBUAN requirements (<https://catalog.erau.edu/programs/graduate/masters/aerospace-business-analytics/>)

Combined Program Requirements

Undergraduate BSABA Courses	111
