

B.S. in Computer Engineering to MBA in Aviation Management

This program allows exceptional students to complete the Bachelor of Science in Computer Engineering (BSCE) and Master of Business Administration in Aviation Management (MBAAM) degrees at the Daytona Beach campus.

The Bachelor of Science degree will be conferred upon completing the undergraduate requirements, and students will be enrolled in the graduate degree. In any graduate course taken by an undergraduate student, a grade of "B" or better must be earned. These credits will count toward the undergraduate and graduate degree requirements, provided the student maintains enrollment in the combined program and receives a "B" or better in the courses.

If the student chooses to leave the program before the completion of the MBAAM program and has acquired the minimal hours required for graduation with the B.S. in Computer Engineering, any MBAAM transition courses used to meet graduation requirements will be noted as undergraduate courses for the purpose of graduation.

Approved Courses for the Combined Program

Students enrolled in the combined option must consult their academic advisor and the MBAAM program coordinator to determine appropriate course selection. This program does not require any courses in Business Administration to be completed prior to application. Students will take up to six hours of ECON 523, MKTG 515 or MGMT 520 in place of the third and/or fourth-year specified electives listed in the program.

View MBAAM requirements (<https://catalog.erau.edu/programs/graduate/masters/aviation-management/>)

Combined Program Requirements

Undergraduate BSCE Courses	121
MBAAM Transition Courses	6
Choose two of the following:	
ECON 523	Advanced Aviation Economics
MKTG 515	Strategic Marketing Management in Aviation
MGMT 520	Organizational Behavior, Theory, and Applications in Aviation
Graduate MBAAM Courses	27
Total Credits	154

Students must fulfill the required MBAAM core classes and any remaining courses from the transitional period that have not been completed.
