

B.S. in Civil Engineering to M.S. in Civil Engineering

This program allows the exceptional student to complete the Bachelor of Science in Civil Engineering (BSCIV) and Master of Science in Civil Engineering (MSCIV) degrees at the Daytona Beach campus.

Upon completing the undergraduate requirements, the Bachelor of Science degree in Civil Engineering will be conferred, and students will be enrolled in the graduate degree. In any graduate course taken by an undergraduate student, a grade of "B" or better must be earned. These credits will count toward the undergraduate and graduate degree requirements, provided the student maintains enrollment in the combined program and receives a "B" or better in the courses. A CGPA of 3.2 in undergraduate CIVE/ESCI courses and 3.0 in graduate courses must be maintained for continued enrollment.

If the student chooses to leave the program before the completion of the MSCIV program and has acquired the minimal hours required for graduation with the B.S. in Civil Engineering, any MSCIV transition courses used to meet graduation requirements will be noted as undergraduate courses for the purpose of graduation.

Approved Courses for the Combined Program

Students enrolled in the combined option must consult their academic advisor and the MSCIV program coordinator to determine appropriate course selection. Students may take up to nine credit hours of 500-level Civil Engineering courses to satisfy the third and/or fourth-year technical electives listed in the program.

View MSCIV requirements (<https://catalog.erau.edu/programs/graduate/masters/civil-engineering/>)

Combined Program Requirements

Undergraduate BSCIV Courses	120
MSCIV Transition Courses	9
Up to nine credit hours of 500-level Civil Engineering courses	
Graduate MSCIV Courses	21
Total Credits	150

Students must fulfill the required MSCIV core classes and any remaining courses from the transitional period that have not been completed.
