

Minor in Business Aviation Operations

The minor in Business Aviation Operations prepares students to manage and lead within the growing field of corporate and business aviation. Emphasizing ethical decision-making, aviation sustainability, and effective management, the program integrates aviation operations with key business and operations principles specific to the business aviation sector. Students gain insight into organizational leadership, operational efficiency, regulatory, and financial considerations in this area of industry.

Designed to complement aviation and business majors, this program equips graduates with the knowledge and skills to excel in roles such as flight operations, corporate aviation management, and aviation services leadership.

Some majors may not be eligible to pair with this minor. See the Minor Restrictions (<https://catalog.erau.edu/programs/undergraduate/minors/restrictions/>) list for details.
