

Minor in Cybersecurity Application and Management

The Cybersecurity Application and Management minor explores the diverse approaches and roles within a field that is increasingly central to national security. Students examine both offensive and defensive cybersecurity strategies, including proactive and reactive methods for protecting critical infrastructure. The program introduces cybersecurity operations, governance, and education and training.

Some majors may not be eligible to pair with this minor. See the Minor Restrictions (<https://catalog.erau.edu/programs/undergraduate/minors/restrictions/>) list for details.
