

Minor in Economics

The Minor in Economics empowers students to critically assess both domestic and global economies. By gaining proficiency in key economic concepts, students position themselves for lucrative roles, equipped to understand and address economic issues impacting consumers, firms, and the global landscape. This minor provides a well-rounded education, allowing students to seamlessly integrate economic principles into any industry. Students develop the ability to apply economic concepts to real-world scenarios, enhancing their contributions to professional endeavors. With its universal applicability, an Economics minor equips students to reach their full potential, influencing business model decisions and fostering economic literacy among consumers and employees.

Some majors may not be eligible to pair with this minor. See the Minor Restrictions (<https://catalog.erau.edu/programs/undergraduate/minors/restrictions/>) list for details.
