

Minor in Psychology

The Minor in Psychology provides students with a foundational understanding of psychological principles and their applications. This program focuses on developing critical thinking, research skills, and an appreciation for the diversity of psychological thought and practice. It will equip students with valuable life skills and a deeper understanding of human behavior and mental processes applicable across all industries and vocations. This minor complements a variety of majors and prepares students for diverse career paths by providing a broad perspective on various aspects of human psychology.

Some majors may not be eligible to pair with this minor. See the Minor Restrictions (<https://catalog.erau.edu/programs/undergraduate/minors/restrictions/>) list for details.
