

Undergraduate Certificate in Uncrewed Systems Technology

The Uncrewed Systems Technology Certificate allows students to establish their expertise and skills in the uncrewed systems technologies. The courses will give them practical application of system controls, task-oriented applications of uncrewed systems, an understanding of business operations, and knowledge of all aspects, including ground, air, and maritime domains. Certificate holders will be able to assume technical roles in organizations that wish to expand their utilization of uncrewed systems and related capabilities. The Uncrewed Systems Undergraduate AS Certificate Program consists of 6 courses that result in students earning 18 undergraduate credit hours.

Note: Certificate programs are not eligible for Title IV Federal Financial Aid unless taken as part of a degree program.

Some certificates may not be eligible to pair with a minor. See the Minor Restrictions (<https://catalog.erau.edu/programs/undergraduate/minors/restrictions/>) list for details.
