

M.S. in Logistics and Supply Chain Management

Globalization is affecting almost every aspect of the world's economy – and the world's economy is sustained by global logistics and supply chain management. As a result, the demand for qualified logistics and supply chain professionals is higher than ever. Competition is fierce for the most prominent positions.

The right education can distinguish you from other professionals in your field and make you more marketable in both the public and private sectors.

A Master of Science degree in Logistics and Supply Chain Management will benefit you even more by providing you with:

- An excellent foundation for professional certification such as the Certified Professional in Supply Management (CPSM) and Certified Professional in Supplier Diversity (CPSD) offered by the Institute for Supply Management (ISM); or the Certified Supply Chain Professional (CSCP) offered by Association for Supply Chain Management (ASCM); or Certified Professional Logistician (CPL) offered by the International Society of Logistics (SOLE). The certification process for the above can be found on each organization's website, and it involves taking exams on different topics and may also require a minimum number of years of professional experience.
- A career that pays very well. Source: Salary.com see average Supply Chain Director salary.
- Additionally, to prepare students for careers in this industry, students are required to become student members of the Institute of Supply Management (ISM). Further, the MSLSCM Program is aligned with the ISM Supply Chain Capability Model.

Program-Specific Criteria

Admissions Criteria

In addition to the standard graduate admission requirements, applicants for admission to the Master of Science in Logistics and Supply Chain Management Degree Program must submit two (2) letters of recommendation, at least one of which must be from a professional contact.
