

Orientation

Orientation is recommended for all students that are newly admitted (both non-degree seeking and degree seeking), returning students who have not previously completed the orientation and permanent IntraUniversity Transfer (IUT) students.

Students are encouraged to complete Orientation in advance of enrolling in their first course upon admission, readmission or permanently transferring to the Worldwide Campus. The Orientation provides students with exposure to and the opportunity to navigate the Learning Management System (Canvas) used to support courses. Students will learn tips for success, expectations, available resources and points of contact for assistance.
